Lipovski geological park. Quarry 4-5 (tourmaline, crysoberyl).

Shaitanski banded agate.

Lipovski geological park. Koltashinski korundums

Lipovski geological park. Epishkin Log.

Lipovski geogikal park. Quarry 4-5. Ruby.

Visokogorski cupper quarry. Malachite.

Visokogorski cupper quarry.

Lipovski geological park. Koltashinski korundums

**12 day**

Crossing to Dolgoe lake (200 km). Visit to Vishnevogorskoe deposit. (20 km). Visit of heaps. Return to Dolgoe lake.

**13 day**

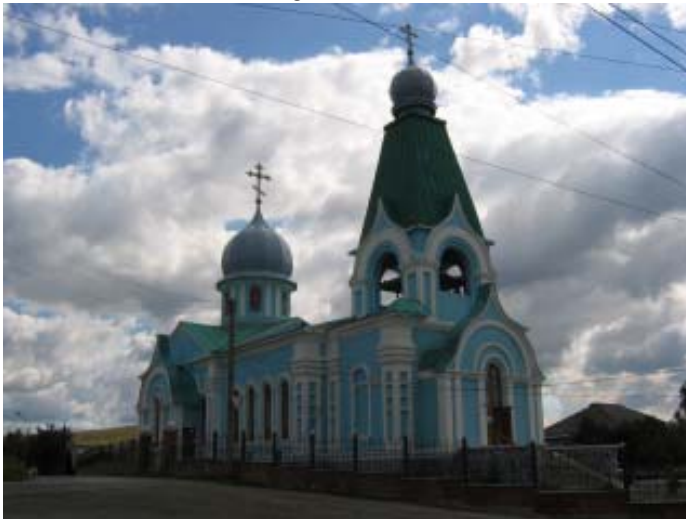

Continue the visit to Vishnevogorskoe deposit. (20 km).

**14 day**

Crossing to Verhni Ufalei (70 km). The visit Cheremshanskoje nickel deposit (garnierite). Crossing to Itkul lake (60 km).

Vishnevogorsk. Nontronite.

Verhni Ufalei city. Church.

Cheremshanskoje nickel quarry.

Standing on Dolgoe lake.

The view from Vishnevi mountains.

Vishnevogorsk. Vein N 5.

Vishnevogorsk. Sadolite, ilmenite, zircon.

**15 day**

Excursion to Poldnevskoje demantoid deposit (100 km).  
Visit of heaps (demantoid garnet, washing gold). Return to  
Yekaterinburg (100 km)

Poldnevskoje plaser demantoides deposit. Demantoides

Poldnevskoje plaser demantoides deposit. Rounded demantoides aggregates.

Poldnevskoje plaser demantoides deposit. Washing gold.

Visokogorskoje copper deposit. Star-like malachite.

Cheremshanskoje nickel deposit. Garnierite.

Itkul lake.

Fragments of pottery and artifacts bronze age  
founded on coast Itkul lake in 2005.

Process enrichment on demantoides placer deposit.

**16-20 day**

Excursions in Yekaterinburg. Museums. Legalization of permission for export from Russia collections of minerals. Excursion to Berezovsk gold deposit (listvenite, beresite, pyrite). Washing gold. Excursion to Shabri (hematite).

**21 day**
